AzTEA

Arizona Technology in Education Association

Thinking about ways to integrate technology to enhance learning and spark creativity in your content area instruction. Join AzTEA's professional learning team for one or two of our Technology and Content Area Learning sessions. These sessions will address exciting and inviting ways to use technology in ELA. Math, Science, Social Studies, STEM, SPED, and AI. Each session will connect Arizona's Ed Tech Standards to specific Content Area Standards.

All sessions will be held via Zoom from 4:30 pm to 6:30 pm Arizona time.

You will be eligible to receive a certificate for two hours of professional development after completing each session.

April 30 SPED

Title: IEP's, Technology, and You

Let's look at how we can integrate technology to help students be successful in the classroom – this primer to technology accommodations will be hands on and guaranteed to spark ideas!

May 2 Math

Title: Math. I.e. party time!

Come learn about the AZ Edtech standards specifically through a Math lens! Examples and questions will be tailored to a math context, allowing you to draft examples for use in your classes right away!

May 7 STEM

Title: TechSpark: Igniting STEM Excellence for Educators.

Unlock the power of technology in STEM education! Join our workshop for educators, where you'll learn to integrate tech tools into your lessons. Gain hands-on experience and innovative strategies to engage students and enhance learning in a digital age.

May 9 AI

Title: AI Adventures: Navigating the Educational Frontier

Pack your virtual bags and join us for an exhilarating professional development session where we'll embark on a thrilling journey into the world of Artificial Intelligence (AI) and how its integrated in education

May 14 Science

Title: Enhancing Science Education through AET Standards Integration

Join us for an engaging session where we explore the 'what' and 'why' of integrating technology into science learning. Discover the power of tech in science education as we break down effective integration strategies and explore several applications.

June 4 Social Studies

Title: Embedding and Integrating Technology into Social Studies Content

Join our session to discover how technology can elevate your social studies teaching! This course is tailored to empower educators in integrating digital tools and strategies into their lessons. Explore innovative ways to make history and social studies come alive.

June 11 ELA

Title: Sparking Interest in ELA through Technology

How can technology support English Language Arts in the classroom? Join us as we explore how the mix of technology, reading, and writing can help develop creativity and critical thinking in your students.
